

RIAA Stuff

This collection of documents involve accurate phonograph reproduction according to the RIAA curve.

1993: ['SPICE Technique Compares Frequency Responses'](#) appeared as an *EDN* Design Idea, November 25, 1993, pp. 188, 190. This article illustrates how to enable a software-based frequency response comparison using SPICE, between an ideal RIAA deemphasis curve and a modeled reproducing amplifier.

1980: ['Topology Considerations for RIAA Phono Preamplifiers'](#) AES Preprint # 1719, was presented at the Fall 1980 AES convention. The networks featured can be used in either active or passively equalized preamps.

1980: ['A High Accuracy Inverse RIAA Network'](#) by Stanley Lipshitz and Walt Jung, appeared in *The Audio Amateur*, Issue 1/1980, pp. 22-24.

*This is an archive document replicating original Waltsblog content
(See [WaltJung.org "Site Pages"](#) for complete list)*
